Re: Public Notice, Case No. 98-077

Dear Sir:

Our family house is located at the above address directly adjacent to the property where "Horizon" proposes to construct a 199 feet high communication tower.

We are strongly opposed to this construction.

Paradise Lane is a quiet residential street by use. This part of Boyd County has not been formally zoned, probably for lack of proper funding. An installation such as proposed by "Horizon" does not belong in a residential neighborhood, and if approved it will undoubtedly adversely affect the adjacent property values.

We sincerely hope that the Public Service Commission action will represent our interest and will deny the application.

Very truly yours,

Joe T. Miller Wanda O Miller
Joe T. Miller & Wanda Miller

Sirs,

I am writing in reference to case # 98-077.

This is an objection to proposed construction of a tower at 1633 Paradise Lane, Ashland, KY.

1. Enough information has not been provided.

If approved when will construction begin?

Will construction interfere with traffic of our

2 lane road? What exactly is the tower for?

What interference will this have on our TV, Satellite, Phone or radio reception? (Cable is not available).

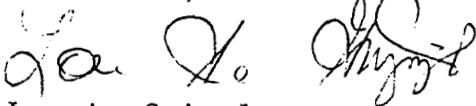

2. What effect will this construction have on our property values?

3. If interference is to be a problem, what effect will this have with the radio frequencies of the State Police Barracks immediately across RT 60.?

4. We moved to our home in the hope of having trees and deer for a view and not a tower to look upon daily. The animals here have always been a comfort to us. How will this effect our animals?

We are concerned with the chosen site. We do not want it here.

Thank You,

Lou A. Grizzle
